3.7 Executive Vice President (Jack Friedlander)

Dr. Friedlander reported SBCC is off to a good start for the fall semester; as of this morning the overall enrollment is up 1.4% and up 4.2% for new and the resident enrollment is up 4.19%, very good because we had budgeted 2% growth for the year. The decline has been in the Life Fitness Center and General Work Experience due to the limit on repeatability. Parking is getting worse and a consultant has been hired to come up with some options/recommendations to increase access to the campus. Of note: Chancellor Brice Harris has stated in an update that in 2008-2009 approximately 2/3 of the CCC budget was in the general fund and for the current year it is now at only 1/3 and there is no certainty year after year because the rest of the budget is tied up in different pots of money, for example, Prop 30, and the Redevelopment Fund. This budgetary uncertainty is something the Systems Office will need to take on.

3.8 Instructors’ Association Liaison (Dave Morris)

Senator Morris reported: a) the I.A. negotiating contract has passed with 75% in favor. The increases should be in the September paycheck and the one-time bonus should be in the October paycheck; needs Board approval; b) the I.A. has proposed the creation of an IA/Senate workgroup with three members from each group to begin setting up parameters for the District supported faculty compensation study. If interested in serving contact President Neufeld, who will then select three faculty; c) Senate matter and information item re: faculty who have requested salary increases based on having completed an online degree; AP to review a possible update of our salary class transfer regulations.

4.0 DISCUSSION ITEMS

4.1 ESL/Basic Skills Proposals (Attachment I or http://goo.gl/oB7dPT)

Ms. Molloy stated these are all great, worthwhile proposals and recommended that all be approved. At the next PSS meeting they will be developing the plan for evaluation and report procedures.

M/S/C Move the ESL/Basic Skills Proposals to Action (O’Connor/Bursten)

4.2 Ranking Faculty Positions for 2014-2015 (Attachment D)

Discussion to determine how ranking faculty positions will occur at the October meetings.

President Neufeld read a synopsis of Agenda item 4.2, attachment D.

After the last ranking the Academic Senate decided, those positions not filled, could present their proposals again during the fall 2013 semester. Deadline dates were announced for:

- Intent to retire notification, in writing, due: Friday, September 13, 2013.
• Proposals for new and replacement tenure track faculty due: Friday, September 27, 2013.
From last year the ranked and unfilled positions are: Nursing, Radiography, CIS, and Chemistry, and are not a part of the current proposal process - the search to fill the tenure track positions continues.

Unknown at this time is the number of retirements. 
Known at this time is the available positions: The District has approved 3 new positions.

Discussed: 1) Computer Applications, English Skills and Psychology, and giving them preference or a handicap. These three positions have gone unfilled for two years and the departments are getting farther behind. 2) Put all requests forward equally and make a determination based on the need/best interest of the students. 3) Look at the process strategically and keep in mind many new regulations/requirements and the consequences if unfilled. 4) Times have been worse and throughout the years the Senate process has adjusted accordingly. 5) Standard practice is available only when there is available funding. 6) Revisit the new and/or replacement faculty hiring practice, procedure and policy.

President Neufeld reiterated that this is one of the most important tasks the Senate does, to identify faculty positions to fill, and above department/division needs, to consider and meet the needs of the college. There are more needs than there are positions available to fill. The plan that was outlined at the beginning of the year was to allow both new positions and replacement position requests to be presented at the Senate.

M/S/D To exempt replacement positions from ranking (Johnston/Coburn) 8 yay 10 nay
M/S/D To exempt the 7 positions from the last two years from the ranking process (Bursten/Alsheimer) 8 yay 10 nay
Friendly amendment from Senator Alsheimer to: 1) to modify the motion to exempt the 7 positions from the last two years from the ranking process; 2) to give the 7 replacement positions from previous years preference in being filled before new replacements and new hires.

There may not be enough positions available to exempt replacement faculty proposals from ranking.
Time wise this is important because of the deadline to submit all new and replacement proposals.

Parliamentarian: 1) To operate this properly there is nothing in the Senate rules that allow for friendly amendments. You can have an amendment, presented as an amendment. That amendment then takes priority and gets voted on. 2) An amendment cannot be proposed where the language is not clear to all the members of the Senate what that original motion was. 3) a) we need the original language of the motion made; b) we need the specific language of the amendment being proposed; c) How to proceed: we vote first on the amendment; if it passes, on to the initial proposal as amended.

Parliamentarian asked for explanation as to why this is in discussion if in fact it needs to be an action item because of the deadline. What you are saying is this should have been put on as an action item because we needed to have action in time for the September 27 deadline.

President Neufeld thanked the Parliamentarian and explained there was no action associated with this item. It was a discussion item to explain how we would proceed in October, and was not intended to be on the next agenda. During the discussion a motion was made by a Senator. The timeline was brought to the Senate at the summer meeting with no opposition to the timeline. Without the motion we would have gone ahead with the timeline.

M/S/C To open ranking (one pool) to all retirement and new positions (DaVega/O'Connor)

Discussion on Robert’s Rules and Parliamentary procedures occurred. Points addressed:
• Friendly amendment – technically not in Robert’s Rules
• Two amendments at most to a motion and the process order of is last amendment first, then the original amendment, then the motion
• Following proper procedure, an adopted motion can be reconsidered at the same meeting; rescinded; amended

Statement on categorically funded positions and first reported at the 7-17-2013 Senate meeting:
The college is seeking support to not include categorically funded positions in the formal Senate ranking process due to their funding source being outside the general fund and our inability to apply categorical money for any other type of faculty positions. At this time the request applies to 5 positions in three different departments, DSPS, EOPS and Counseling. EVP Friedlander and Superintendent/President Gaskin confirmed with the Senate President that these categorical positions would not be included in the calculation of our Faculty Obligation Number because they are not general fund dollars. If a change occurred in the funding source e.g. if categorical money went away, at that time, the college would decide to either pay or not pay for those positions. If they chose to pay for them, these positions would then be counted in the FON. All positions hired through categorical funds would be reported to the Academic Senate at the time such an event takes place. Supporting this would benefit the college by hiring the essential faculty with categorical funds that cannot be used for anything else and would reduce the overall competition in our general ranking process (five fewer positions competing for the already reduced number of available openings).

If we agreed, to not include these categorical positions in the ranking process, would there be adequate funding available over the next few years? For current and historical purposes there is no indication that categorical funding will go away.

What would the disadvantage be? If the college does not spend the money the college would lose the money. And, something we were not aware of, according to regulations; the hiring of temporary contract faculty for these specific categorical positions is not acceptable and we are working towards compliance. The five categorical positions in question are: 1 credit counselor (currently vacant), 1 Continuing Education counselor (Lydia Aguirre-Fuentes), 1 EOPS counselor (Camila Acosta), 1 DSPS counselor (Gerry Lewin), 1 DSPS counselor (currently vacant). Currently two of these positions are being counted in our FON and would be removed from the FON count if there is positive support for this proposal. President Neufeld asked if there were any further questions/need for clarification or opposition to proceeding as proposed.

Currently the number of positions available due to announcements, retirements and growth are: 8 or 9
• Late Spring 2013 vacancy announcements (total of 2): Scott Brewer, Sherry Fair
• Announced retirements (total of 3 possibly 4): Rob Dependahl, Carol Diamond, Debbie Mackie, possibly Elida Moreno
• Growth (total of 3): Allocated/approved by Superintendent/President Gaskin

The fall 2012 required/frozen FON is 229.40 and our actual FON is 237.20. Two of the categorical positions under discussion are being counted in the actual FON and if removed would bring the actual FON total to 235.20 and with the growth position of three would bring the actual FON to 238.2 and a growth of one position. November is when the actual required FON will be released.

4.3 Academic Senate Bylaws Revision (FIRST READING)
(Attachment E or http://goo.gl/oB7dPT)
President Neufeld explained: the most significant changes to the bylaws: each appendix has been incorporated into the bylaws document itself; the ballot process to allow for the option of electronic voting, remove redundant items included already in the Constitution, and update data e.g. TLU, and committee information.

4.4 Enrollment Generation Strategies (handout at meeting)
Dr. Friedlander explained the handouts identify the FTES loss when all the non-enhanced non-credit FTES count moved to self-supporting/non state funded. The loss of that FTES will need to be made up by Credit.
When we can we borrow the FTES that are short from the summer. With the expected growth the only way to get out of debt would be to offer two summer session.

Dr. Friedlander, in an effort to collect additional data on the topic for the Senate, presented a student survey on “Interest in Two Six-week Summer Sessions” and asked the Senators for any suggestions and/or recommendations and received valuable suggestions and recommendations.

Dr. Friedlander also discussed “Fresh Start” to make the enrollment process less restrictive to those students that have been out of school for two or more years and invite them back. Currently there are 27,000 students have taken 9 or more units at SBCC and stopped attending; of those students approximately 20,000 are still in the Santa Barbara area. They would need to go through our process: orientation; follow advice on what course of action to take and; meet our criteria for academic forgiveness. Give them the tools they need and invite them back.

4.5 Board Policies and Administrative Procedures (Attachment F or http://goo.gl/oB7dPT )
