3.2 Richard Hoffman will retire at the end of this academic year.

The Library requests a tenure track replacement position effective Fall 2008.

Kenley Neufeld requested a tenure-track replacement rather than a temporary contract. Several comments addressed the concern of late retirement announcements and requests for tenure-track replacements. In this particular situation, there is a consensus about the importance of the library as a service to the entire campus community. The Senate would like to have some documentation from the Library stating the reasons for missing the retirement announcement deadline and the request to replace this position with a tenure track replacement rather than a temporary contract replacement.

*(Rationale from Kenley Neufeld and summary from Ignacio Alarcón attached to minutes)*

M/S/C To move the request for a tenure track replacement position to action (Garey/Molloy)

M/S/C To approve the request from the Library for a tenure track replacement position, in light of extenuating circumstances and given that the Library is a crucial and central service to the college. (Garey/Molloy)

Ms. Molloy also handed out the information on the PSS requests for unallocated Basic Skills funds for 2006-2007. There was a concern expressed about the technology that being purchased in an ad hoc manner, creating problems in the replacement cycle.

Kelly Lake expressed that the Committee for Teaching and Learning is expecting guidance from the senate regarding their role in SLO process. Kelly also reported that the Faculty Lecture will take place April 9, 2008.

5.0 Adjourn
Addendum to Minutes from December 5

Richard Hoffman announced his retirement on November 30 2007, after the October 5 deadline established by Human Resources/Legal Affairs.

The Library requested the Academic Senate grant a full-time tenure-track position as a replacement of the position that will be vacated by Richard Hoffman (see statement from Kenley Neufeld below.) Previously, the Senate heard a proposal from the Library for a new full-time position during the regular cycle of hearings of requests for new full-time positions. Even without Richard Hoffman’s retirement, a very strong case of need was made by its director, Kenley Neufeld. Richard Hoffman’s retirement compounds this need.

At the Senate meeting on December 5 the Library request was heard. An overriding concern is that honoring these requests overlooks our set frame of deadlines, requests for replacements, and hearing/ranking of proposals. This is a truly undesirable situation, because of the likely perception that a deadline is not meaningful. Our process works well for adequate planning and allocation of resources. Several comments from senators requested clarification regarding the impact that honoring this request would have as a precedent for similar requests in other situations. A consensus reflects that that a late announcement of a retirement by a faculty member will in general have the negative effect that a full-time replacement is not granted, and that in its place the use of a temporary contract is the likely recourse.

In summary, as the minutes of the meeting reflect, the senate agrees that there are extenuating circumstances to honor the Library’s request. The very positive revitalization of the Library is regarded as extremely valuable for all sectors of the college and should not be compromised. The late announcement of Richard Hoffman’s retirement compounds the needs for stable staffing. A narrative of the current needs and immediate plans for the Library is attached to this addendum. At the same time, the senate strongly feels that efforts need to be made to instill in departments the importance of adhering to deadlines for announcement of retirements, so that proper planning and allocation of resources can take place.
From Kenley Neufeld, Library Director

Re: Request to replace position vacated by Richard Hoffman at the Library

The position (held by Richard Hoffman) functions as the primary gateway for all materials that enter the library in that subject headings and call numbers are assigned. There are nuances to this work that often vary from person to person and it is therefore important that consistency be maintained for easy access to our collection by all patrons. Though these responsibilities will diminish in the future, perhaps to 40% of overall duties, there will be an ongoing need for a cataloger at SBCC. Since the cataloger is the primary user of our automation library system, this position will also serve as the database administrator by conducting maintenance and reports (currently maintained by the Library Director). Our biggest need, outside of cataloging, is someone who can work directly with students and faculty. The public face of the library is critical to our success and to our ability to meet the needs of students. With only three librarians (Instruction Librarian, Outreach Librarian, and Library Director), we are often stretched to meet the basic needs. With the increased traffic in the library (up over 80% in the last two years), we would like to capitalize on the high number of students using the library by expanding our services and programs.
