Cancer Information Management

2009-10

Certificate of Achievement in Cancer Information Management

The Cancer Information Management (CIM) Program will prepare students for positions in hospital-based and population-based cancer registries. Responsibilities typically include: identification of reportable cancer cases, abstraction of pertinent cancer data from patient records, pathology, radiology, and surgical reports, coding and staging primary site, histology and extent of disease, monitoring completeness, timeliness, and quality of cancer data, performing cancer patient follow-up activities to identify second primaries, recurrence and spread of disease, reporting cancer data to health care officials, hospital administrators, physicians, and regulatory organizations for use in cancer prevention and control, assisting the medical staff and epidemiologists in special studies and research, and supervising staff.

Career Opportunities

Graduates of this program will be granted a Certificate in Health Information Technology. A graduate may take the national certifying exam to become a Certified Tumor Registrar (CTR).
