Santa Barbara City College

Studio Arts for Transfer 2017-18

Associate in Arts Degree in Studio Arts for Transfer

The Art Department at Santa Barbara City College provides the students an opportunity to study and experience art from a broad range of emphases: a well-structured art studio or art history curriculum for the traditional art major; as part of a structured program for majors from other departments such as MAT or Graphic Design; or for enrichment, development and fulfillment of college requirements for the non-art major.

The department offers courses in design, drawing, three-dimensional design, painting, printmaking, artists' books, ceramics, sculpture and art history to provide the student a full background and training for either transfer to another institution or to proceed independently.

The Associate in Arts in Studio Arts for Transfer degree will provide the foundational knowledge to students who want to earn a Baccalaureate Degree in Studio Arts. This degree is in compliance with the Student Transfer Achievement Reform Act {Senate Bill 1440, now codified in California Education Code sections 66746-66749} and guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer,” a newly established variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student's community college area of emphasis. Visit www.sb1440.org for the latest information about these degrees.

NOTE: Program first offered Spring, 2014.
