Addenda to Agenda for Regular Board Meeting
Thursday, June 2, 1960, 4:00 p.m.

SANTA BARBARA SCHOOL DISTRICT

2.3 Election of Additional New Teacher for 1960-1961: The Superintendent recommends that Mrs. Eula C. Hill be employed as a teacher for 1960-1961 at a classification of I-1 P-1 or II-1 P-1, salary $4600. or $4900. Mrs. Hill will be assigned to a special education class.

SANTA BARBARA HIGH SCHOOL DISTRICT

2.2 Additional Leaves of Absence Requests: The Superintendent recommends that the following persons be granted leaves of absence in accordance with details noted:

Mrs. Jean W. Hoefer

Leave without salary for reasons of health, 1960-1961 school year

Ralph Wagner

Leave without loss of salary, June 13 - 17, 1960, to meet summer school responsibilities (compensatory time for full-time services during Spring Vacation)

2.10 Attendance at Conference: The Superintendent recommends that Jane C. Criner, school social worker in the special research project under Dr. Elmott’s direction, be authorized to attend a California Youth Authority workshop at Asilomar June 13 - 17, 1960, without loss of salary and with no direct expense to the district.

4.3 Drainage Problem, San Marcos High School: The Superintendent wishes to present the following problems related to solution of the storm drain problem at San Marcos High School:

a) You will recall that at the Board meeting on March 10, there was discussion regarding conveyance to the Santa Barbara County Flood Control District of twelve feet of land along the easterly boundary of the Fong Property as the School District’s part of a cooperative development with subdividers of adjacent property in solving the problem of draining water from the general area. Contacts have been made with the Flood Control District and Mr. Ray Martin, engineer for subdividers of the adjacent property. Further details, including drawings, will be presented at the Board meeting. The Superintendent recommends that the Board declare its intention to convey the necessary property to the Santa Barbara County Flood Control District; and that the Board instruct the Business Department to prepare a legal resolution of such intent for approval at a later meeting.
b) In the initial development of the San Marcos High School site, Hollister Avenue was widened along the entire frontage of the Wing property. The County Road Department has now requested that Hollister be widened along the remainder of the school site. In conjunction with this widening, it will be necessary to connect the proposed drainage channel (see #a above) with the drainage channel now being developed by the subdividers of the property directly across Hollister Avenue from the school. It is recommended that the Board of Education request the County Flood Control District to assume this connection responsibility. A proposed letter outlining this request will be presented for approval at the Board meeting this afternoon. The President of the Board should be authorized to sign it.

c) At the present time, a 33-inch underground pipe carries water from the northerly portion of the Santa Marcos High School Site to an existing open ditch which runs approximately along the easterly boundary of the Wing property. With development of the proposed drainage channel (see #a above), it would be desirable to route this water into the new channel.

It is recommended that the Board request Mr. Ray Martin to prepare engineering studies of this project so that the work may be done concurrently with development of the adjacent subdivision. The expense to the School District for this project would be approximately $6,000, including engineering fees. Further details, including drawings, will be presented at the Board meeting.

Requests for Use of Santa Barbara High School Swimming Pool: The Superintendent recommends that the Board grant the following requests for use of the Santa Barbara High School Swimming Pool during the summer of 1960, and that Mr. Browne be authorized to arrange the necessary details:
