The resolution sets October 23, 1961, at 1:00 p.m. as the date and time for hearing any objections or protests.

5. **BUSINESS AND FINANCE**

5.1 Junior College Tax Relief Grants: The 1961 State Legislature enacted Senate Bill 48 which made available five million dollars to be distributed among California school districts which maintain junior colleges, said monies to be used for one of the following services: debt service, acquisition or improvement of sites, planning and construction of buildings (purchase of equipment excluded). The State Department of Education was charged with the responsibility of computing each school district's entitlement under the provisions of the new law and developed a formula based on the assessed valuation for resident a.d.a. This maximum entitlement for the Santa Barbara High School District under this formula would be approximately $36,000.

Applications for these entitlements must be made to the State prior to March 1, 1963. Those applications for repayment of debts (retirement of bonds or repayment of loans outstanding against the Service Fund of the respective County Superintendent of Schools) will be approved immediately upon verification of the outstanding debt. In the case of funds to be used for site acquisition or improvement, or construction of buildings, the school district must provide matching funds on a four to one basis and verification of the availability of such funds on the part of the district must be made by the County Superintendent and the County Auditor.

This information is presented for consideration by the Board in connection with budgetary planning later in the school year.

6.2 (continued) It is the intent of the Student body to purchase a 1961 Chevrolet 9-passenger Station Wagon from Washburn Chevrolet at a cost of approximately $2500. The Student Body in turn, will make a gift of the station wagon to the High School District with the provision that the use be confined to Student Body activities of the City College.

Insurance on the car will be carried by the District's insurance carriers, with the cost to be borne by the Student Body. The Student Body also agrees to pay all cost of operating and maintaining the car. The only obligation of the District will be that of obtaining the "E" license plate.
