2.4 Request to Participate in Program in Sweden:
The Superintendent has been selected as one of 80 superintendents from the United States to spend five weeks in Sweden to study the Swedish school system. The American Association of School Administrators in cooperation with the Swedish Government and The Experiment in International Living is sponsoring this program in Sweden for school administrators from September 16 through October 25, 1963. It is commonly known that this educational system is one of the outstanding in Europe. The Superintendent requests that he be allowed to participate in this project as a representative of the Santa Barbara City Schools at an expense of not to exceed $300, which would defray expenses to and from New York City.

4.7 Administration Center Site: For many years the Board and the administration have been searching for a suitable site for a new administration building. In recent weeks the Board and administration have visited several suggested sites. A review has also been made with City officials concerning City property which might be available. As a result of recent developments together with the background of the problems involved over many years of study, the Superintendent recommends that:

1) the Administration Center be located in or adjacent to the Elementary District.

2) the Service Shops and Warehouse remain on the present site until a definite demand is made for that property. This function can then be moved to a suitable site.

3) the sale of the present Administration site be delayed for four months to give the City opportunity to negotiate for all or a portion of the property.

4) the Board authorize the administration to begin negotiation immediately for the 4.5 acres on Cliff Drive located just west of La Marina.

5) a committee of Board members and administrators interview local architects who do not have work under construction at the present time. This should be done prior to the September 5th Board meeting.

4.9 Tabulation of Bids Opened July 30, 1963:
Attached for the information of Board members is a tabulation of bids opened Tuesday afternoon on the following, together with recommendations on acceptance of the low bids:

Relocation of portable classrooms - Santa Barbara City College
Boiler replacement - Santa Barbara City College
Roof repairs - Santa Barbara High School
5.b **Additional Payment of Claims:**

The Superintendent recommends authorization for payment of the following claims from the High School District Bond Fund:

<table>
<thead>
<tr>
<th>Contractor</th>
<th>Description</th>
<th>Amount</th>
