</table>
1. The teacher is entitled to full freedom in research and in publication of the results, subject to the adequate performance of his other academic duties. However, during his teaching hours and other assigned duties, no teacher shall engage in research or work other than such research or work as may be required in furtherance of and in discharge of the teacher's assigned duties. In the absence of a separate, express, and mutually acceptable contract to the contrary, the teacher shall have the exclusive property right to all materials which are produced or developed outside of his teaching hours and other assigned duties and which are the product of his mind, time, and talent.

2. In the classroom, the faculty member is entitled to freedom of expression in discussing his subject. In an area of controversy, he should feel free to express or not to express his opinion. A faculty member must use his own discretion and professional sense in determining the relevance of his communication to the subject matter, as well as to the students. His responsibility is to his students and his subject matter within and in keeping with the total educational context of which faculty member, students, and subject matter are parts.

3. Outside of class but on campus, a faculty member is free to express himself on any issue or subject within an individual or group context, provided such expression does not interfere with the educational process.

4. The college or university teacher is a citizen, a member of a learned profession, and of an educational institution. When he speaks or writes as a citizen off campus, he should be free from institutional censorship, but his special position in the community imposes special obligations. As a man of learning and an educational officer, he should remember that the public may judge his profession and his institution by his utterances. Hence, he should at all times be accurate, should exercise appropriate restraint, should show respect for the opinions of others, and should make every effort to indicate that he is not an institutional spokesman.

However, the institution has no legal claim on his rights as a citizen. The institution should not, therefore, restrict his right to act in his capacity as citizen in the wider context of community, state, and country but should recognize and support his freedom to act in this capacity.

5. If the professional sense and/or discretion of a faculty member is brought into question, the matter shall be referred to the Academic Freedom and Tenure Committee.

Nothing in this policy shall be construed to deprive the District of any right which it may have under law with respect to the governing of the College and the personnel under its jurisdiction, including but not limited to the District's rights under provisions of sections 13402-13451 of the Education Code.

Revised by Representative Council 12/11/68
2. **PERSONNEL**

2.4 **Request for Authorization to Employ an Assistant Dean, Student Activities**

A selection committee composed of students, faculty members, and administrators has screened and interviewed candidates to fill the position of Assistant Dean, Student Activities. The committee recommends that an offer of employment be made to Norman E. Clark.

The Acting Superintendent-President has checked with Mr. Norman E. Clark, who has agreed to accept the terms of employment as noted below. The Acting Superintendent-President recommends that the Board ratify the appointment of Norman E. Clark to fill the position of Assistant Dean, Student Activities.

Amendment to Resolution Number 31

PASSED AND ADOPTED this 23rd day of January, 1969, by
the following vote of the Board of Trustees, to wit:

AYES: Alexander, Frank, Garvin, Gutshall, Meiga, Wells

NOES: None

ABSENT: Fillippini

ATTEST:

[Signatures]

Lorenzo Delli'Azzi, Clerk of the
Board of Trustees of said District

Benjamin F. J. Wells, President of the
Board of Trustees of the Santa Barbara
Junior College District
5. BUSINESS & FINANCE

5.4 Amendment to Resolution #1 Ordering School Bond Election

Since the filing of the list of precincts and polling places with the County Superintendent of Schools, several changes have occurred which require Board action. The Acting Superintendent-President recommends that the changes on attachments 5.4-a through 5.4-d be authorized and filed with the County Superintendent of Schools for corrected publication of the Notice of Election.

5.5 Request for Board Approval of a Schedule for the Sale of District Capital Construction Bonds

One of the changes made in the Education Code during the 1968 session of the Legislature makes it mandatory for school boards to provide certain information regarding the sale of general obligation bonds. In order to comply with this new requirement, Board consideration is requested for the schedule outlined below. This plan has been developed by the Administrative Dean, Business Services and approved by the co-chairmen of the bond campaign and the Acting Superintendent-President.

<table>
<thead>
<tr>
<th>Date of Sale</th>
<th>Amount</th>
<th>Total</th>
<th>Estimated Redemption Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summer or fall, 1969</td>
<td>$1,500,000</td>
<td>$1,500,000</td>
<td>3 cents</td>
</tr>
<tr>
<td>Summer or fall, 1970</td>
<td>$2,200,000</td>
<td>$3,700,000</td>
<td>7 cents (for both issues)</td>
</tr>
<tr>
<td>Summer or fall, 1971</td>
<td>$1,802,000</td>
<td>$5,502,000</td>
<td>8 cents (for all three issues)</td>
</tr>
</tbody>
</table>

Beginning in 1972-73, the bond redemption rate will decrease and become progressively lower each successive year. Carefully planned investment of any unused bond funds in state regulated securities paying maximum interest will further reduce the bond redemption tax rate.

The Acting Superintendent-President recommends that the Board adopt this plan for the sale of District bonds and that the Administrative Dean, Business Services be authorized to provide the County offices and the State with the required information.
AMENDMENT TO RESOLUTION NUMBER 31, DATED DECEMBER 12, 1968

CHANGES TO BE MADE IN PRECINCTS AND POLLING PLACES
FOR MARCH 4, 1969 BOND ELECTION

Special Election Precincts and Polling Places as Designated in Original Board Resolution

Precinct #2 shall include the area embraced within the following established Santa Barbara County General Election Precincts: Goleta 13, 20, 41, 42, 43, 4, 8, 10 and 11.
POLLING PLACE: Isla Vista School
6875 El Colegio Road
Goleta

Precinct #13 shall include the area embraced within the following established Santa Barbara County General Election Precincts: Hope 1, 2, 3, 3A, 4, 5, 6, 13, 15 San Roque 16 and Mesa 2.
POLLING PLACE: Vieja Valley School
434 Nogal Drive
Santa Barbara

Precinct #8 shall include the area embraced within the following established Santa Barbara County General Election Precincts: Goleta 16, 29, 37.
POLLING PLACE: Cathedral Oaks School
300 North Turnpike Road
Santa Barbara

Precinct #18 shall include the area embraced within the following established Santa Barbara County General Election Precincts: Santa Barbara 31, 31A, 31B and 32B.
POLLING PLACE: Adams School
2701 Las Positas Road
Santa Barbara

New Designations for Special Election Precincts and Polling Places

Precinct #2 shall include the area embraced within the following established Santa Barbara County General Election Precincts: Goleta 4, 10, 11 and 41.
POLLING PLACE: Isla Vista School
6875 El Colegio Road
Goleta

Precinct #2-A shall include the area embraced within the following established Santa Barbara County General Election Precincts: Goleta 8, 19, 20, 42 and 43.
POLLING PLACE: St. Michael & All Angels
781 Embarcadero Del Mar
Goleta

Precinct #13 shall include the area embraced within the following established Santa Barbara County General Election Precincts: Hope 1, 2, 3, 3A, 4, 5, 6, 13, 15, that portion of San Roque 16 lying within the boundaries of the Hope School District and Mesa 2.

Attachment 5.4-c
Amendment to Resolution Number 31

PASSED AND ADOPTED this 23rd day of January, 1969, by the following vote of the Board of Trustees, to wit:

AYES:

NOES:

ABSENT:

ATTEND:

Lorenzo Dall'Armi, Clerk of the Board of Trustees of said District

Benjamin P. J. Wells, President of the Board of Trustees of the Santa Barbara Junior College District

Attachment 5.4-d
1. What is the amount of the bond issue?
   $5,502,000

2. When will the election be held?
   Tuesday, March 4, 1969

3. What can be accomplished with this amount of capital?
   Along with the matching funds provided by the State, this $5,502,000
   is sufficient to complete the Mesa Campus to accommodate 5,000
   daytime students.

4. What part of the construction funds will the State provide?
   Approximately 50 per cent, but the District must raise the matching
   50 per cent in order to be eligible for the State funds.

5. Is there any way that the Board of Trustees can raise the local matching
   funds if the bond election fails?
   Yes. Under terms of Senate Bill 691 (1967), junior college boards
   may levy a permissive override tax to raise the district’s share of
   the construction funds.

6. Is there any limit to the amount of override tax the Board may levy?
   There is no limitation in terms of amount. However, only projects
   approved by the State can be undertaken. The State will approve
only projects which will provide space based on the necessary
capacity of the college in comparison with the number of students
enrolled. Many junior colleges are "overbuilt" and will not
qualify for any State funds. The State also places limitations on
the amount of money to be spent for each type of facility. This
limitation is based upon a square footage cost. Under Senate Bill
691, Santa Barbara City College—because of a shortage of facilities—
ranks high on the priority list for funds.

7. How long will it take to complete the campus?

Under Senate Bill 691, approximately 10 years.

8. Will the property taxpayers be asked to approve any other bond issues or
tax overrides for construction purposes if this bond issue passes?

No, not in the next 8 to 10 years.

9. Why did the Board decide to go for bonds again when two previous elections
have failed?

The bond approach to long-term construction financing costs the
property taxpayer far less than the pay-as-you-go method. The
Board feels that the voters should have a choice.

10. What is the comparison in the cost of the two methods of financing con-
struction?

<table>
<thead>
<tr>
<th>Bonds</th>
<th>Tax Override</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 cents the first year.</td>
<td>Between 30 and 40 cents the first year.</td>
</tr>
<tr>
<td>Never higher than 8 cents.</td>
<td>Approximately the same the second year.</td>
</tr>
<tr>
<td>Average of less than 3 cents over</td>
<td>All construction costs paid over a 10-year period</td>
</tr>
<tr>
<td>the 25-year period.</td>
<td>instead of 25 as would be the case with bonds.</td>
</tr>
</tbody>
</table>
11. What will be the cost to the average taxpayer for redeeming the bonds?

It will cost the owner of a $25,000 home $1.88 in property tax during the first year. In the peak year of the 25-year period it will cost that same taxpayer $5.00. The average over the 25-year period will be approximately $1.50 per year.

12. How much will it cost the average taxpayer if the bonds fail and the Board has to levy the tax override?

During the first year, between $18.75 and $25.00.

During the second year, approximately the same amount.

During subsequent years, much smaller amounts.

(The first two years call for relatively heavy construction of major buildings.)

13. Why does the City College need more facilities?

Enrollments at City College are growing at a steady pace. The figures listed below are evidence. Of the classrooms and laboratories presently in use, only five are permanent. The remainder are either temporary, relocatable, or substandard. City College lacks most of the facilities found on the average junior college campus in this State.

</tr>
<tr>
<td>*1968</td>
<td>3,259</td>
<td>9%</td>
</tr>
</tbody>
</table>

Estimated enrollment 1976: 5,410

*The diminishing percentage of increase for 1967 and 1968 has been brought about by the Board policy to eliminate non-resident students who live in an area where a junior college is available.
14. What type of student does City College take care of?

City College provides an education for any and all local students who can profit by the programs, even if the student is not a high school graduate. With state colleges and universities turning away more and more lower-division students, the vast majority of high school graduates seek admission to junior colleges. Since the community college provides a variety of courses and programs, the appeal to post-high school youngsters is great. The "open door" policy of admitting any student who can profit from the education, whether it be transfer or job training oriented, makes City College very popular indeed.

15. Is the Board providing quality education in as economical a fashion as possible?

City College has an excellent reputation for its educational and job training programs. The tax rate in the Junior College District has remained virtually constant over a five-year period. The current tax rate is 63 cents per $100 of assessed valuation. In 1964-65, the tax rate was 61 cents. During the period that the tax rate rose only two cents, enrollments increased by 73 per cent.

Another statistic which points up the economical way the District has been operating is shown below. The figures listed reflect the current cost of education per unit of ADA at Santa Barbara City College as compared with the State average for all junior colleges.

<table>
<thead>
<tr>
<th></th>
<th>SBCC</th>
<th>State Average</th>
</tr>
</thead>
<tbody>
<tr>
<td>1965-66</td>
<td>$556.30</td>
<td>$632.07</td>
</tr>
<tr>
<td>1966-67</td>
<td>$621.10</td>
<td>$699.90</td>
</tr>
</tbody>
</table>

The 1967-68 figures are not yet available, but it is safe to assume that the same kind of pattern will prevail.
16. Are there any alternatives as to the methods (bond or tax override) for raising funds for construction of permanent buildings at City College?

None, unless some benefactor is willing to donate or bequeath large sums of money to the college.

17. What kind of contribution has the property taxpayer made in recent years for construction of permanent facilities at City College?

A $7,000,000 bond issue was approved in 1962. Of this amount, $3,500,000 was allocated to City College for construction of new buildings. Since that time, there has not been one cent of new tax support for permanent facilities at City College. The District share of the Life Science-Geology Building now under construction is coming from the general fund at the expense of salaries and other general purpose allocations.

18. What facilities will be built with the bond issue funds and the State matching funds?

- Mathematics and English Classroom Building
- Foreign Language and Psychology Building
- Business Trades Building
- Business Education Classroom Building
- Nursing Education Facility
- Physical Education and Health Education Complex
- Fine Arts Building
- Theater and Music Building
- Social Science Offices
- English Offices
- Business Education Offices
- Remodeling of Campus Center, Auditorium, Library, Administration Building
- Additional Physics and Chemistry Laboratories

19. Why can't the use of present facilities be stretched to accommodate additional students?

The classrooms, laboratories, and service facilities at City College are being used from 8 a.m. to 10 p.m. At the present time, there are 2,179 students taking night classes. Of this number, more than 40 per
cent are concurrent students who take day classes as well. It is obvious that this amount of spillover into night classes means only one thing: there are not the classes nor the facilities available to take care of all students during daytime hours.

20. Is the design and type of construction of the new buildings planned of such a nature that the taxpayer will get his money's worth?

The type of construction used for the buildings to be constructed for the District has been selected for its economy in initial construction and for its ease of maintenance.
Santa Barbara Junior College District

SANTA BARBARA CITY COLLEGE
Santa Barbara, California

(Date)

Friends of City College:

On March 4, 1969, the voters of the South Coast area will be asked to approve a $5,502,000 bond issue for the Santa Barbara Junior College District. Success of this bond issue will guarantee the funds necessary to complete the Mesa Campus to accommodate 5,000 daytime students.

It is the intent of the Board of Trustees that construction at City College will be undertaken according to a Ten-Year Master Plan as prescribed by Senate Bill 691. Under the terms of this bill, the State will provide half of the necessary funds, thus reducing the burden on the local property taxpayer by 50 per cent.

Senate Bill 691 makes it possible for local governing boards to raise the district share of construction funds by means of a permissive override tax. In computing the amount of levy necessary to match the State share, it has been determined that during the years of heavy construction the amount of tax necessary could be as high as 35 to 40 cents. The prospect of assessing a levy of this magnitude caused the Board to look for an alternate way of raising the local matching funds. The best alternative available is bonds.

Because bonds can be redeemed over a long period of time, the obligation is spread to students who will use the buildings and will later on become property taxpayers. The tax levy required to pay the principal and interest on the bonds is only a small fraction of the amount of tax override mentioned in the preceding paragraph. The estimated bond redemption rate will be approximately three cents the first year, will never go higher than eight
cents, and will average less than three cents over the 25-year period. The
Board of Trustees of the Santa Barbara Junior College District strongly feels
that the property taxpayers of this area should have a choice as to the method
of funding selected. A successful bond election means that, as a property
taxpayer, you will be paying far less but accomplishing the same goal.

There is no question but that enrollments at City College will continue
to grow at a steady if not accelerated pace. As a governing board, we have
pledged ourselves to providing the facilities necessary to guarantee a quality
post-high school education to any and all local students who qualify. To do
less, in our estimation, would be akin to shirking our duties as elected
representatives. We sincerely hope that you will see fit to share the contents
of this letter with anyone who is interested in locally-controlled, free,
public education.

Sincerely yours,

Board of Trustees
Santa Barbara Junior College District
