I. PROJECT DESCRIPTION

Statement: This planning guide is a request for support of equipment funds in the 1974-75 fiscal year for the Drama & Music Facilities.

Scope: This project consists of the equipping of a new facility that will provide approximately 30,771 square feet of assignable space of which 8,606 ASF will provide teaching laboratory and practice room space for the Music Department. The Drama Department will be provided specifically with 2,784 ASF of teaching laboratory and, in addition, 15,235 ASF will be devoted to the Performance Hall and its associated spaces, seating 360 persons. In addition, 2,830 ASF of general assignment classroom space will be provided. The 1,306 ASF of office space is listed and shown in this plan. However, it will be funded entirely with district funds.

This project is to be a multi-purpose facility to provide instructional space for Music, Speech and Drama, as well as a Performance Hall for college and community use. The Performance Hall will serve as a theater for the Drama Department, a concert hall for the Music Department, a small auditorium for college and community events, a place for student meetings and for large group instruction.

The 2,830 ASF of general assignment classroom space will house lecture type spaces with most equipment being various types of seating, some tables, small AV equipment. One room, the rehearsal area will serve as a 60-station classroom in addition to being an area for rehearsals and small performances. This area will have small clusters of movable tiered seating for maximum flexibility. The arena will have sound control, recording facilities and portable lighting equipment.

The Performance Hall will be furnished with seating for use as a performing area for both drama and music. A grand piano, organ, chairs, music stands, pit piano and portable choral and band risers will be provided. Performance service areas will include an orchestra pit and lower level property area equipped with storage racks, work bench, costume racks and drapery storage bins. Upper level storage areas will be equipped with scene docks and provisions for portable rolling ladder for access. The Performance Hall will be furnished with complete sound projection and lighting capability as a part of the building construction. Other Performance Hall service areas include: the make-up lab with seating and portable storage units--costume lab equipped with clothing racks, seating, tables, sewing, washing, drying, and dyeing capabilities--dressing room with lockers. The foyer will be furnished with ticket receptacle, portable posts, and plastic control rope.
Drama & Music Facilities Equipment (cont'd.)

The Drama Scene Lab will be furnished with shop tables, storage units for building materials, hoist, power tools for working with wood, plastic, and metal, storage bins, and painting facilities.

The Music Facilities include: a 60-station instrumental lab and 80-station choral lab equipped with seating, AV, projection, recording and playback capability. The choral lab will include a portable stage, grand piano, and storage cabinets. The instrumental lab will include study carrels, storage cabinets, tables, and an existing grand piano. The control room will house a stereo tape recorder, mixing units, tables, chairs and storage cabinets. The music storage area will include verti-files, sorting rack, work table, and storage cabinets.

The theory room will include a piano, storage units, desk, chairs, projector, stereo playback system and cassette unit.

The piano room will include relocation of existing electric pianos with console system.

The practice rooms will include a baby grand piano, four studio pianos and two sound booths in addition to existing booths being relocated in the building contract.

The appreciation lab will include existing seating, new grand piano, AV capabilities, existing stereo record system and storage cabinets.

Instructors offices will include desks, chairs and storage units.

Total cost of movable equipment is estimated to be $407,730.
