ADVISORY COMMITTEES FOR OCCUPATIONAL EDUCATION

SANTA BARBARA CITY COLLEGE
721 CLIFF DRIVE
SANTA BARBARA, CALIF. 93109
FOREWORD

Since the days of the guilds, when the young learned their trades as apprentices, the honored crafts of those who have earned their livings with skilled hands and minds have contributed much to society. Today, children are no longer apprenticed in servitude, and modern tools, technology and educational teaching methods have replaced the old learning system; however, we still view the specialist with respect and recognize the training required to develop and refine the professional skills needed for men and women to meet the needs of our space-age society.

Santa Barbara City College owes much to the men and women who voluntarily serve on the College's advisory committees which guide our many occupational and career training programs ....... from proposed class offerings to full two-year training programs. These "hands-on" professionals have provided advice, assistance, knowledge and leadership ....... invaluable assets which have created, supported and increased City College's response to community needs.

City College's students, faculty and staff, and Board of Trustees thank these citizen advisory committee members, community professionals, who have guided the College in developing a wide range of career and occupational training programs, fulfilling the needs of our students and the "marketplace." Without them there would be no programs. Their names are listed in this publication. We are grateful.
