The California Education Code allows Santa Barbara Community College District to determine its own policies on the exchange of students within certain parameters.

1. Santa Barbara Community College District has a free exchange of students with sixty-four of the California Community College Districts. This allows students who are residents of these districts to attend any college in the 64 districts with no tuition charged. Each district reports the attendance of the student and collects the A.D.A. created by that student. This free exchange applies to 16 and 17 year olds (minors) whose parents reside in another district as well as those 18 year olds and older who reside in another district.

2. In addition to the 64 free exchange districts, there were four districts which did not desire a free exchange. Consequently, there was a Notice of Restriction issued to those districts. The Notice of Restriction prevents Santa Barbara Community College students from attending those districts and their students from attending Santa Barbara Community College District unless the student is willing to pay a full tuition charge. Santa Barbara Community College District has a Notice of Restriction with the following college districts: Lake Tahoe, Lassen, Mt. San Jacinto, Solano.

3. Santa Barbara Community College District has formal interdistrict agreements with the two contiguous districts-Allan Hancock Community College District and Ventura Community College District.
   a) We agreed to a free exchange of students with Allan Hancock Community College District. The number of students exchanged in the past has been quite similar. During this past year (1979-80) our A.D.A. attributed to Allan Hancock Community College students increased from 12.79 to 24.33.
   b) The agreement with Ventura Community College District is that all students are required to have a permit to attend the other district. Our agreement states that there will be no cost to either district for the first 10 units of A.D.A., and thereafter full state apportionment. Each district will reimburse the other at a full state apportionment rate for all exchange A.D.A. in excess of the 10 unit free exchange.

Using the policy adopted in March 1979, we have reduced the number of permits given to our residents to attend Ventura Community College District. Those students given permits were for the following programs of study:

Based on the rate $894.13 per A.D.A. we could expect to be billed by Ventura Community College District for $10,032.14 for 1979-80.
