1.7 COMMUNICATIONS

a. REPORT BY ACADEMIC SENATE - Dr. Barbara Lindemann

Dr. Lindemann reported that the Faculty In-Service Day had been very successful. She expressed appreciation for attendance by board members. Response on the content was all positive; a feeling that reorganization is called for; recognition of need for better long-range planning; interest in financial future.

She added that Dr. MacDougall's address had been well received, especially in how he mentioned educational issues.

Representative Council is involved in setting up a committee on reorganization. A recommendation will be forwarded to the Superintendent/President on minimum and/or maximum class sizes.

Mrs. Powell commented that the location was better this year and there was a spirit of everyone glad to be back. She felt there was a positive direction occurring in attitude of faculty.

Dr. MacDougall commended Dr. Lindemann, Larry Friesen, Bob Cummings, and the Office of Instruction for the success of a well-planned event - such a success does not happen by accident.

Dr. Dobbs attended some of the small sessions where he was impressed with the enthusiasm displayed and felt the quality of the faculty is "tops."

   - Classified Mgmt/Supv/Conf.

In addition, there will be a mid-year recalculation, not open to renegotiation, if additional revenue is received above that projected by the Chancellor's Office. If such an increase occurs, it will be recommended that 80% be applied to salaries for the various groups on campus.

Dr. John Kay expressed thanks "to Dr. MacDougall and Charles Hanson (in their presence) and to Dr. Mertes (in his absence) for their openness, integrity and willingness to exchange information on the state of the State," He and John Bowman had worked very closely with these persons for several months and the Instructors' Association membership realizes there is financial uncertainty. They believe that the 1981-82 salary schedule and settlements are reasonable. They also hope to discuss a number of issues in the coming year.

Mr. John Bowman also expressed appreciation to Dr. MacDougall and Dr. Mertes for being open and candid in discussions. The offer is accepted without complaints but recognizing that for one more year salaries are still behind the inflation rate.

Mrs. Powell concluded that everyone is ready to sigh with relief and hoped that other things would now receive attention. She expressed appreciation for the innovative planning on the part of board subcommittee members and staff to bring about these results, and hoped there would be no further discussion until next year.

The senate will concentrate on issues of parking and housing; there is a larger budget this year; and more equipment like typewriters will be acquired for student use.

A lengthy discussion ensued on the parking problems, in particular, the serious problem of the city parking lot with major pot holes causing damage to cars.

Mrs. Powell suggested a possible meeting of the students with the Board Facilities Subcommittee. She thanked Mr. Malone for his report.

1) continued:

Mr. Ed Aasted briefly spoke on bringing back a 4th of July event for the people of Santa Barbara. He found a program, We The People, that will tie the community into the program. The event is sponsored by both the Fire and Police Departments; has received sanction of City Council; and is funded for next year. Proceeds will benefit both agencies.

In response to questions, Mr. Aasted stated that it had been discontinued due to the hole-digging problem on the beach front and budgeting constraints. The city is providing some funds next year. A committee has been formed for logistical planning.

Mr. Luria expressed concern about results of this event as he well remembers the aftermath of years gone by.

Mr. Aasted stated that in the past the Police Department has been reactive. This last year citations were written for individual cases of fireworks in the city. Planning will be complete in December.

It was moved by Mr. Wells, seconded by Dr. Dobbs, and passed by the board to approve of the use of La Playa Stadium on Sunday, July 4, 1982 by the Fire and Police Departments for an Independence Day celebration.

Mrs. Powell requested an update report when available.

2) Sunday, September 27, 1981

This was a request to use the upper parking lot facing the ocean for a showing of some 20 cars by the Santa Barbara Jaguar Club.

It was moved by Mr. Wells, seconded by Mr. Luria, and passed by the board to approve of the use of the upper parking lot on Sunday, September 27, 1981 by the Santa Barbara Jaguar Club for a small automobile show.

7. ADJOURNMENT

   Mrs. Powell declared a recess at 5:47 p.m. to wait for the arrival of Assemblyman Gary Hart. Upon his arrival, board members and staff will meet in the HRM Coffee Shop and the meeting will reconvene.

   At 7:05 p.m. Mrs. Powell reconvened the meeting in the HRM Coffee Shop and declared the status as a committee-of-the-whole for informal discussion purposes. (Those attending are listed on Attachment #2 and were served a no-host dinner upon the arrival of Mr. Hart at 6:00 p.m.)

   Dr. MacDougall extended a cordial welcome to Assemblyman Gary Hart and to all present. On behalf of all present, he expressed appreciation to John Dunn and his students for the excellent meal served,
7. ADJOURNMENT - continued:

Dr. MacDougall indicated that the discussion guide distributed should be regarded as suggested topics. He had each person give their name and the area they represent, and then turned the meeting over to Mr. Hart.

Mr. Hart expressed appreciation for the self-introductions and the invitation to meet with board and staff members. He has had this type of contact for 2-3 years and has encouraged other legislators to seek this kind of an opportunity with their boards. He felt it was an important communication process and makes a legislator more accountable.

He said the legislature had just adjourned and if one saw the pictures and stories in print, it was not a distortion. The same atmosphere prevailed when AB 1626 was passed at the same time as the budget; legislators were working toward the summer recess and under frantic circumstances.

Mr. Hart tried to explain the process up north, hoping it would not be taken for an excuse. He was disappointed but cannot condone the process when faced with severe deadlines in considering a hundred or so bills at one time. Special circumstances relate to AB 1626 as it was moving along with the budget which was a very complex document. In the past, a community college finance bill has stood on its own, but this year a decision was made by leadership that these funding bills had to move along with others - almost a 4-ring circus situation. Mr. Hart had the major responsibility for AB 777; was in conference meetings for three solid days; and did not have the physical resources to donate to the community college's issues as in previous years.

"It is important to remember that this bill is the result of compromise," stated Mr. Hart. There were many freshman legislators this year who, in conference meetings, were not acquainted with the language of credit and non-credit. On the Senate side, more was taken out in trying to balance the budget. The state fiscal picture is very bleak, and "even if I had had the time, I would not have been able to save the non-credit program."

The amount of money available has been dramatically reduced. In trying to balance the budget, the Senate was considering a $25 fee for all students, or reduce the dollars for the non-credit program. The fee idea was 'blown out of the water'. People who served on the conference committee did not have the expertise on the Assembly side, plus the fact that there are not many people who have an understanding of community colleges. Another point is the attitude of many legislators toward adult education; certain courses are considered 'flaky' and it affects the image legislators have of the program as one that is frivolous. Mr. Hart has some knowledge of community colleges, and has worked hard to educate some of his colleagues. Now is the time to think of steps that can be taken next year to see this does not happen again; pointing the finger is not important. He stated that he would be more vigilant on behalf of this district.
7. ADJOURNMENT - continued:

Mr. Hart felt it was important to form a coalition with other districts, especially with those who have similar programs. He emphasized that this district is not alone as every segment has been affected. In terms of charges/fees, the community colleges don't have tuition. The University of California system is approaching $1,000 for fees. With another increase in fees for the University of California system, there exists a disparity between the University of California and community colleges, as some legislators will want to know if there is justice in community colleges' not having any fees at all. Another area is whether college libraries should have fees for cards, as dollars are getting scarce for buying books - more and more are being obtained through donations. These issues have to be seen in the context of what is happening statewide. We are entering into another era in education as the situation will get worse rather than better; Reagonomics will be felt next year.

Another issue that will affect revenue loss for the state is the elimination of inheritance tax on the next state ballot - it may be as high as 2% of the total revenue. Mr. Hart stated that 'people who care about community college education will have to be actively involved. There is a need to educate other legislators; Senator Seriots is a good legislator who took on the education committee without any experience but is a good learner; Senator Davis on the education committee is a thoughtful man, and places someone on the republican side; Freshman Bill Leonard (San Bernardino) has a lot of credibility, but he feels strongly about the differences between adult education and the community colleges and he is working toward the community colleges being reduced from $1,100/ADA to $900/ADA.

As to why what happened with AB 1626 did happen, Mr. Hart felt that most legislators were not pressured - prevailing attitude in legislature is a stereotype of friendly course is the way to go.

In response to other questions, Mr. Hart stated that where policy is a component of the finance bill, that is real - as it relates to classification and 28% part-time teachers. It must be understood what the intent of the legislature is when they include policy such as this in finance bills - they are fiscal issues; it is considered a way for colleges to make dollars at the expense of faculty members; classification system is trying to understand what course is being offered and why they are being in order to have an inventory system of what is out there in the districts. As to local control slipping away based upon shift in funding, the state has to get involved when there are so many areas competing for the dollars. Most legislators believe local boards are good ones, but the state has responsibilities, too. The legislators are not in the position to take into account differences.

Mr. Hart reiterated that 'fees' are an increasing policy point. He stated that community colleges have had strong support, but feels that that is changing. Senate wanted to put on fees this year; next year it will be a big point of discussion. A 2c tax increase for roads was opposed by Mr. Hart last week; and he sees the inheritance tax issue passing -- that increase and taking about $200 million out of general fund will be a further drain on money normally going to education. University of California suffered cutbacks this year but that was offset by increase in fees for students.
7. ADJOURNMENT - continued:

Staff members felt that this district has been penalized for operating very frugally; the penalty came after the passage of Prop. #13 - the district would like to get back to their status prior to Prop. #13. There is a slow movement toward equalization. The COFPHE Fund that was set up for higher education has been raided and may be raided again - there is a small amount remaining. As regards a coalition: the K-12 have rural, low wealth, high wealth; then there are the big 8 districts; there is nothing comparable for community colleges. In terms of special circumstances, some form of alliance could be organized for greater visibility.

Dr. MacDougall thanked Mr. Hart for appearing today and giving staff members a very realistic picture. He added that it is obvious that a continued effort will have to be made, and he asked for assistance in bringing Senator Serioby, or others to this district. Mr. Serioby represents the Los Angeles district which does not have an adult education program, and perhaps information of a district with a large adult education program like Santa Barbara could be a source of enlightenment.

Board members and staff also expressed appreciation to Mr. Hart for taking time from his busy schedule.

The informal discussion period then ended.

Upon motion of Dr. Dobbs, seconded by Mr. Frank, the Board of Trustees adjourned their special meeting at 8:20 p.m.

Action by the Board of Trustees on September 3, 1981 cancelled the next regularly-scheduled board meeting of September 24, 1981. Therefore the next meeting is the regular meeting of October 8, 1981.
