The Board of Trustees is committed to a clear and supported process for transfer. This process is designed to assist students pursuing transfer to identify and complete a program of study that will prepare them for academic success in four-year institutions. Articulation is a foundational element of this goal.

Articulation is the process of evaluating courses to determine whether course work completed at one institution will meet requirements for admissions, transfer credit, general education, or major preparation at another institution. Articulation officers develop and coordinate course articulation agreements between two-year and four-year institutions. This process enables transfer students from SBCC to successfully transition to a four-year campus.

The Superintendent/President shall establish administrative procedures to implement articulation.
