Program Description
This department offers occupational and professional programs in business which meets the needs of students planning to obtain immediate employment, retrain, earn an A.A. Degree, transfer to a four-year college or university, or take courses to enhance their understanding of the environment in which they work and live.

Business Administration courses (Business Administration, Business Law, Legal Environment of Business, Management, Business Mathematics, Real Estate, and Entrepreneurship) give students general business knowledge in managerial controls, economics of business, human resources (personnel), labor relations, business risks, interaction of government and business law, production and distribution. They provide the foundations for areas of specialization, such as accounting, finance, or marketing management.

Management courses prepare students to be entrepreneurs, or lead toward a career in management of a larger firm. These courses may provide an existing manager with new insights and training, or may offer new career possibilities to the younger student, or a chance to change careers to the older student.

The Real Estate Program is designed to prepare students for professional certification as real estate salespeople and real estate brokers. All courses are taught by practicing real estate professionals with strong academic backgrounds, extensive practical experience and local community service. These courses are valuable for real estate investors, developers, appraisers, escrow officers and property managers. Attractive opportunities for careers in these areas exist in Santa Barbara. All of the Real Estate courses are designed to satisfy California’s real estate licensing requirements.
