Degrees
Associate in Arts Degree, Philosophy
Associate in Arts Degree (AA-T):
  Philosophy for Transfer

Program Description
The study of philosophy develops and refines a rigorous, analytic understanding of certain of our fundamental concepts, e.g., knowledge, reason, truth and value. Since all other disciplines in academia rely on the use of such concepts, the study of philosophy is essential for an education directed toward completeness.

The study of philosophy also yields other tangible academic benefits. It has been shown that philosophy students scored at least five percentage points above average in admission tests for professional and graduate schools in America. No other subject matches philosophy in this respect. Philosophy students do better in examinations for business and management school than anyone except mathematicians.

With employment opportunities beyond academia apparently growing, e.g., consultants to hospitals, state legislatures, Congress, genetic engineering firms and artificial intelligence companies, there has also been a proliferation of philosophical journals focused on such topics as the allocation of scarce medical resources, abortion, euthanasia, disposal of nuclear waste, corporate responsibility and fair profit, etc.

The Philosophy Department additionally provides an Introduction to Philosophy course which surveys most of the standard fields of philosophy—logic, epistemology, metaphysics, ethics, aesthetics, the philosophy of religion and political philosophy.

The other courses offered (Ethics, Logic, Comparative World Religions, History of Philosophy: Ancient, Modern and Contemporary, Issues in Philosophy) are more specific and detailed accounts of these standard fields.

These philosophy courses may be transferred to four-year institutions. (Check for specifics with your counselor)

The department offers an AA-T Degree in Philosophy for Transfer. This degree provides the foundational knowledge in philosophy to students who want to earn a Baccalaureate Degree in Philosophy. This degree is in compliance with the Student Transfer Achievement Reform Act {Senate Bill 1440, now codified in California Education Code Sections 66746-66749} and guarantees admission to a California State University (CSU) campus for any community college student who completes an “associate degree for transfer,” a newly established variation of the associate degrees traditionally offered at a California community college. Upon completion of the transfer associate degree, the student is eligible for transfer with junior standing into the California State University (CSU) system. Students will be given priority consideration when applying to a particular program that is similar to the student’s community college area of emphasis. For more information on transfer degrees, visit www.sb1440.org.

Program Student Learning Outcomes
1. Demonstrate knowledge of the historically significant questions, problems and theories in the major areas of philosophy (epistemology, metaphysics, value theory, logic), including the views and arguments of the major representative philosophers who have addressed these issues.
2. Demonstrate knowledge of the basic rules and principles of logic, including the skill and knowledge of identifying, analyzing and evaluating arguments.
3. Demonstrate knowledge of the questions, problems, issues and theories that characterize the major historical periods of Western philosophy (Ancient, Medieval, Modern and Contemporary), as well as the views of the some major philosophers within these periods.
4. Demonstrate knowledge of the complexity of the human condition, including knowledge of the significance of feelings, emotions and cultural/historical influences on philosophical thinking and methodology.
5. Demonstrate critical thinking skills, virtues and attitudes in the exploration of issues; these include intellectual humility, empathy, fairness, open-mindedness and respect for the intellectual standards of clarity, accuracy, precision, relevance, scope, depth and coherence.
6. Demonstrate proficiency in philosophical writing, which includes presenting a philosophical thesis, supporting that thesis with arguments, and articulating and responding to counter-arguments.

For complete information, see “Graduation Requirements” in the Catalog Index.

Planning a Program of Study  
The required Philosophy courses for majors may be taken in any order, but it is recommended that Introduction to Philosophy be taken as a prelude to the other courses.

Preparation for Transfer  
Course requirements for transfer vary depending upon the college or university a student wishes to attend. Therefore, it is most important for a student to consult with his/her counselor and departmental adviser before planning an academic program for transfer. Information sheets for majors, outlining transfer requirements, are available in the Counseling Center and Transfer Center.

Requirements for AA-T Degree—Philosophy for Transfer  
Philosophy covers a wide range of topics. The major is designed to give students exposure to basic information in the discipline and provide the opportunity to focus on the areas that best suit their individual needs. Students should consult with a departmental adviser and/or counselor when choosing both controlled and general electives in order to develop a program of study that is best suited to their specific needs. For example, requirements for the Baccalaureate Degree in Philosophy vary from one institution to another. It is, therefore, essential to become familiar with the requirements of the institution a student plans to attend.

The Associate in Arts Degree in Philosophy for Transfer will provide the foundational knowledge to students who want to earn a Baccalaureate Degree in Philosophy at any of the CSU campuses.

III. CSU Transferable Electives
Complete as many units as needed to reach a total
of 60 CSU-transferable units (for a list of SBCC-
transferable courses to CSU, visit www.assist.org).

Additional Graduation Requirements for
AA-T in Philosophy
• Maintain a cumulative CSU-transferable GPA of 2.0.

• Residency Requirements: Candidates for an
Associate Degree are expected to complete 15
semester units in residence at SBCC. Candidates
for an Associate Degree are also expected to
complete at least 20% of the department major
requirements in residence at SBCC.

Honors and Awards
The Philosophy Department selects one student as
Outstanding Student who is presented the Philosophy
Award at the annual year-end Santa Barbara City
College Awards Banquet. No application for the award
is required of students.

Special Programs
Housed within the Department of Philosophy is the
Center for Philosophical Education. CPE serves primarily
two functions. First, CPE publishes the undergraduate
international journal of philosophy, STOA. It is published
twice a year and features outstanding faculty-nominated
undergraduate papers from around the world.

Second, CPE organizes international conferences
in philosophy, which are held on the SBCC campus.
Hosting groups of outstanding philosophers from
primarily the United States and Europe for multiple-
day events, CPE provides, through its conference
offerings, unique and enriching professional academic
experiences for both philosophy students as well as
the greater Santa Barbara community. Contact the
Philosophy Department for CPE or STOA information:
www.sbcc.edu/philosophy.

The Philosophy Department also sponsors the Peter
A. Angeles Colloquia, a year-long, campus-wide series
of lecture-discussions involving scholars, politicians
and entertainers of national and international stature.
The lectures are traditionally held in the Garvin Theatre
and occur typically once a month. Previous lectures
can be seen on videotape in the LRC.

The Philosophy Department also sponsors the
Philosophy Club. Any students interested in the study
of philosophy are encouraged to join. Officers are
elected in the fall, and a yearlong agenda of speakers
and meetings is developed by the membership. All
members of the campus community are welcome.
