

Santa Barbara City College Student Sustainability Coalition

Mission Statement: Our mission as a student organization is to increase eco-logical literacy and implement environmentally innovative solutions at Santa Barbara City College thus creating a model for sustainability.

5 Main Goals:

1. Increase environmental awareness and ecological literacy at SBCC
2. Create tangible change on campus advocating the most sustainable practices.
3. Improve campus community and quality of life for student, faculty and staff.
4. Build networks and relationships across campus to maximize resource productivity and environmental protection through student led campaigns, project, and events.
5. Develop a sustainability model for intuitions and community colleges throughout California, the Nation and the world
