

# SBCC Disaster Evacuation Plan

The College Emergency Plan is designed to cover a variety of emergencies including **earthquakes, fires, chemical spills, acts of violence, severe weather and utility interruption.**

If an emergency requires evacuation of one or more buildings:

- 1) Activate alarms
- 2) Evacuate Building(s)
- 3) Call Security
- 4) Call 9 1 1 \*\*
- 5) Move to evacuation assembly areas if necessary (**See map**)

**SBCC Security: Ext 2400 or 730-4200 by cell phone**

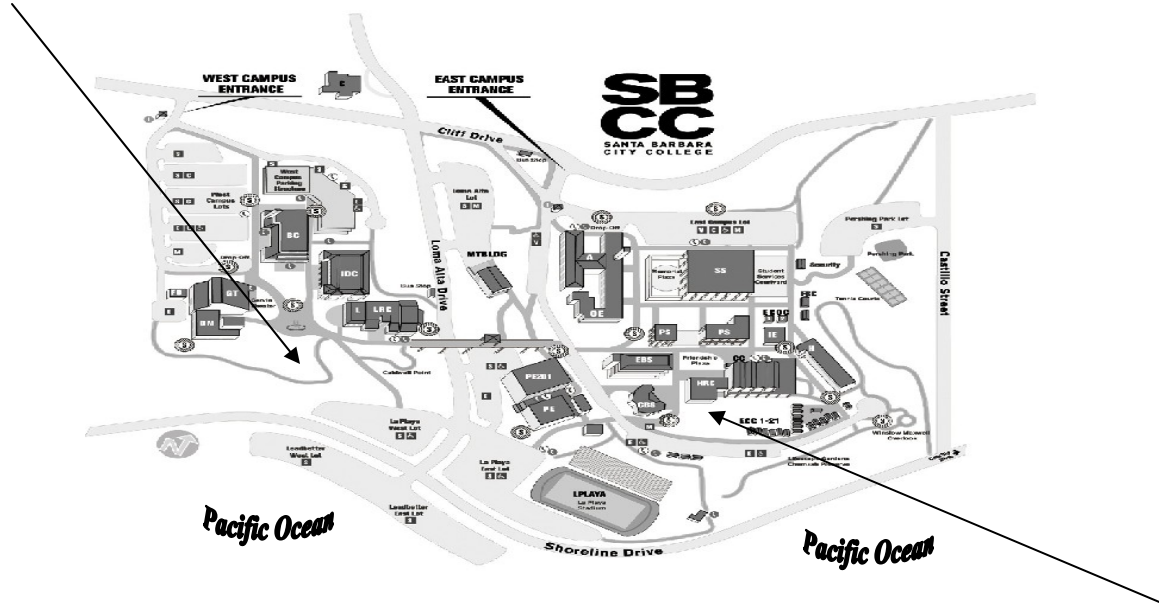

**Fire/Police/Ambulance: 9 then 911 or 965-5151 by cell phone**

**\*\*Remember, cellular 911 calls do not provide any caller retrieval information.**

**Be sure to give the dispatcher your callback number and location information before disconnecting**

**EVACUATION ASSEMBLY AREAS FOR MAJOR EMERGENCIES ARE:**

**WEST CAMPUS: GREAT MEADOW BETWEEN DRAMA MUSIC & LIBRARY**

**EAST CAMPUS: UPPER FIELD BETWEEN CAMPUS CENTER & PORTABLE CLASSROOMS**

In the event of an **earthquake**, persons in low-lying areas such as La Playa Stadium, Field House and Physical Education should **evacuate to high ground** until it has been determined that there is no threat of tsunami. **Do not use the campus footbridge until it is determined to be safe to do so.**

In the event of an act of violence, threatened violence or hazardous chemical release it may be necessary to take shelter in place, inside with doors and windows closed.

## **Communication:**

During local emergencies telephone networks may be interrupted due to high traffic volume. Local area AM/FM and television stations may be the best source of information through the Emergency Alert System (EAS)
