**SISC CO-PAYMENT REFERENCE GUIDE**

**CONSUMER SHARE PLAN**

Medco manages your prescription drug benefit at the request of SISC. Your plan gives you the option of getting your covered medications through **Medco By Mail** or at a participating retail pharmacy.

The chart below provides a summary of your prescription drug benefit co-payments.

*A generic drug will always be dispensed if one is available. If you purchase a brand-name drug when a generic alternative is available, you will pay the generic co-payment plus the difference in cost between the brand and the generic, even if your doctor writes “dispense as written” (DAW) on the prescription.
For your short-term prescription needs, visit a participating retail pharmacy. When you present your member ID card, you will be charged a co-payment for your prescription. For medication you take on an ongoing basis, using Medco By Mail offers you convenience and potential cost savings. You can get more information about the Medco By Mail program by calling 1 800 MEDCO-MAIL (1 800 633-2662).

If you have Internet access, you can visit us online at www.medco.com. After registering, you can access information about your benefits, as well as health and wellness resources. You may also contact Member Services toll-free at 1 800 987-5241. Medco looks forward to meeting all of your prescription benefit needs.

**Medications that are not covered by your drug plan**

Listed below are medications and medication categories that are not covered under your SISC drug plan. The list may not reflect all noncovered drugs and may be subject to change. To confirm whether a prescription drug you need to take is covered or to check the cost of a medication, visit www.medco.com and click “Price a medication.” (If you’re a first-time visitor to the site, please take a moment to register. You’ll need your member ID number and the number from a recent prescription.) You can also get coverage and pricing information by calling Medco Member Services toll-free at 1 800 987-5241.

Please note that this list may not be all-inclusive.

- Anti-wrinkle agents (Renova®, Retin-A®, and Avita® for patients aged 36 and over)
