Ideas for a Vision...

1. In addition to a first-rate education, SBCC will be the nation’s leading community college in developing socially conscious world citizens.

2. Foster a College known for promoting student understanding of the broad spectrum of social topics that impact our world.

3. Promote strategies of civility for students in discussing worldviews.
The community college movement was founded on social change – Higher education access for the masses!

We are privileged and have a duty to those less privileged among us.

The under-privileged cannot solve problems alone.
Finding Civility...

For students, socially conscious citizenship is emotional and sensitive.

We must give students the tools of civility, so they can converse about social subjects calmly, respectfully, and logically.

Accordingly, civility and socially conscious citizenship go hand and hand!
Guided by a 1st Rate SBCC education!
Appreciative of Personal Privilege
Aware of Social Injustices
Cognizant of Oppressive Structures
Experienced with Underprivileged
Civil in Social Arguments and Stances
Strategic in Organizing for Social Causes
