Selected Student: Andres Beltran

Submitted by: Esther Frankel

The CIS Department is pleased to present our outstanding student, Andres Beltran. Andres will be completing his online A.S. Degree with exceptional grades, and department faculty enthusiastically recommended him for this honor.

Andres emigrated to the U.S. from Bogota, Colombia, and selected an online SBCC CIS degree after extensive research on various online institutions and programs. He is currently pursuing his degree remotely from outside of the Santa Barbara area.

Andres is planning to complete another CIS vocational certificate and then plans to transfer to a CSU to pursue a Bachelor's Degree. His love of learning and of our field is apparent in all of his interactions with our faculty and with his fellow students.

Andres' Words of Gratitude:

I would like to thank all my professors at SBCC, with special thanks to professor Esther Frankel, and professor Jon Bek, who have guided my education through many courses and extended to me their invaluable feedback. I would also like to thank my academic counselor, Kathryn Magnani, and the financial aid staff who have made my academic progress possible. I would also like to thank all the SBCC staff, from the admissions office to the support staff because they have always been outstanding and very professional, and yet very eager to help. Finally I would like to thank my family for their continuous support.
