Should I fill out an optional arts supplement?

If you’ve made a substantial commitment of time and energy to one or more of the arts and you wish to have that considered as part of your application, print and complete the Arts Supplement and send it with a resume, an instructor’s letter of recommendation, and a CD or DVD of your work. Increasingly, colleges are requesting you do this online. Check specific college information in the Requirements Grid or on the college’s own website to ensure a member institution uses this form or welcomes arts submissions.
