

I am excited to run for Student Body President because I want to create a warm, welcoming community where every student feels like they belong. I will do this through ensuring we participate in events such as the Olympics, Club Day, Unity in the Community and fun, trivia events where we give away merch. I will advocate for establishing committees that are beneficial for students, such as continuing to work to get EBT into our cafeteria. We will also volunteer with PATH, the shelter for unhoused individuals. I believe in being vocal in support of students' needs and I want every student to feel like they can bring issues to ASG and we will listen and take action. This year, as the Student Trustee, I chaired the Women's Leadership Conference Committee and co-chaired the EBT Committee, the Resolutions Committee, and the PATH Committee. I presented regionally at Advocacy Academy on EBT and nationally on Resolution 18, a resolution the Board of Trustees released to uplift African American students, faculty, and staff. I will work relentlessly to help support your needs and create an atmosphere of belonging on campus. I would be honored to have your vote.
