*Santa Barbara City College*
Your Educational Goal Options

Associate in Arts (A.A.)
Associate in Arts for Transfer (AA-T)
Associate in Science for Transfer (AS-T)
Associate in Science (A.S.)

An Associate Degree is the first college degree you can earn, and it signifies the completion of 60 semester units of college work in General Education courses (G.E.) and courses required for your major. Associate in Science Degrees are awarded for occupational and technical majors. Many students require basic skills work to prepare them for college curriculum, and those students may be required to take more than 60 units to complete the Associate Degree.

Certificate of Achievement Programs
A short-term program (usually one to three semesters for full time students) in an occupational, technical, or business field. Certificate programs focus almost exclusively on preparing you for a specific occupation or area of employment. Few courses outside of the major field are required.

Transfer Program
At SBCC, you may complete your first two years of university work required for a Bachelor’s Degree (4-year college degree) and transfer as a junior to the baccalaureate institution. You may transfer with or without an Associate Degree. Consult with a counselor.

Skills Competency Award
The Skills Competency Award (SCA) Program identifies courses which, when taken together, will best prepare students to enter the workforce in their chosen field. These awards provide future employers with verification that the student has mastered core competencies.

Department Awards
Department awards are designed for programs that provide students with needed skills in a particular area in a short period of time. Department awards are not state-approved. They are offered to provide recognition of achievement in different areas of study.

Art: Emphasis in Art Studio
2016-17

Associate in Arts Degree in Art: Emphasis in Art Studio
Students interested in art, either as a vocation or as an avocation, have an outstanding opportunity to prepare themselves for this field under the guidance of the Santa Barbara City College art faculty. All instructors are professional artists who exhibit on a national and international basis.

The department has planned an art curriculum to prepare students in their primary field of interest, plus a range of disciplines and fundamentals important to artistic development. The department offers courses in drawing, design, painting, sculpture, ceramics, printmaking and art history to give the student maximum background and training either for transfer to another institution or to proceed independently after leaving SBCC.

Careers in Art
Artist, designer (set, costume, display, etc.), graphic designer, advertising art, art director, layout artist, illustrator (technical, medical, fashion, scientific, etc.), animator, art teacher, art therapist, art historian, museum curator, gallery assistant, art buyer/consultant and art restoration.
