Congratulations on having completed your Math assessment. To access your test results:

1. Log onto your Pipeline account
2. Under the STUDENT tab, click on STUDENT RECORDS
3. Click on VIEW COURSE PLACEMENT AND ELIGIBILITY

Math placements often include eligibility for multiple courses. You may take any of the math classes listed in your pipeline account. If you have any questions please see an Academic Counselor. It is critical that you receive individual advice regarding which class is appropriate for you based on your skills, your major, and your educational goals.

**UNDETERMINED STATUS:** If your math course placement is listed as “Undetermined,” your test score suggests that you may have taken a math test above your skill level. Before enrolling in a math course at SBCC you must return and take a lower numbered math test or request retake permission for the same level test (see below for information on the math retake petition process).

**Special note to students who plan to enroll in Math 117 & 114:** Completion of Math 117 or 114 does not lead to any other math courses. Students who plan to enroll in a higher level math course must meet the prerequisite requirement, which is placement by exam or successful completion of the appropriate SBCC prerequisite course. See the Math Flow Chart for details. Students may also present proof of successful completion of an equivalent prerequisite course taken at another college for prerequisite clearance. For more information, visit sbcc.edu/prerequisites.

**MATH RETAKE PETITION PROCESS:**

You may take each specific test once per testing period. There are two testing periods per year: 1) Spring and 2) Summer/Fall. October – January is the testing period for Spring enrollment and February – August is the testing period for Summer/Fall enrollment. **You can take a different test (either higher or lower) at any time. If you would like to request permission to retake the same level test within the same testing period, please follow the steps below:**

1. Contact Assessment Staff either in person (Room SS-251) or via phone (805) 730-4149 to obtain a diagnostic report and written permission to retake your test. Permission is dependent on the score from your initial test.
2. If your retake request is approved, you may reassess any time after **two weeks** from your original test date. Bring your retake permission letter with you to retake your test.
3. Use the diagnostic information from your original test to review for a higher placement. For math study packets and other test preparation materials, go to sbcc.edu/assessment and click on “Sample Test Questions.”
