tips + resources

## SET A SCHEDULE...

Set aside a specific time to do your job search. If you are applying to multiple places, set up a system where you can keep track of where and when you applied, so that you can follow up, if needed.

## ...BUT BE FLEXIBLE

Changes do happen. As with any plans today, we are adapting to challenging situations. Don't be too hard on yourself. Allow yourself the space to adjust as needed.

## GO TO OUR WEBSITE
