

Summer Positions Leader Creek Fisheries

Who We Are

- ❖ Leader Creek Fisheries is a producer of wild Alaskan sockeye salmon products in Naknek, AK.. We specialize in producing premium fresh-frozen, boneless fillets, and every summer we invite approximately 400 highly motivated, hard working individuals from across the country to come work at our shoreside plant and be a part of the Leader Creek family.
- ❖ Leader Creek prides itself on producing the highest quality sockeye salmon fillets in Bristol Bay. We've been producing beautiful fillets for 20 years.
- ❖ We hire Salmon Processors to work in AK from June-August

Who We Are Hiring

- ◆ Being a fish processor is not easy work. When the plant is running at full capacity you will be expected to work 16 hours a day, 7 days a week.
- ◆ You must have a strong work ethic, the discipline to get out of bed and get to work on time, and the desire to do the best you can each and every day.
- ◆ We do not need employees to arrive with any specific processing related skills, we do need those who can learn quickly and are willing to do whatever it takes to get the job done.

Why We Are Hiring

- ❖ The annual average sockeye run is 36.9 million run for the latest 20 year time period. Bristol Bay's productive salmon runs are remarkable even by Alaska's standards.
- ❖ Every year Salmon return to Bristol Bay in astounding numbers, largely due to the sound, scientific management of state and federal agencies.
- ❖ [Source: Save Bristol Bay http://www.savebristolbay.org/commercial-fishing](http://www.savebristolbay.org/commercial-fishing)
- ❖ Our fishermen catch the fish, we process it, and from there it goes to our consumers.
- ❖ This means there is a lot of opportunity for our employees to work overtime!
