College Consultation Process for Prioritizing Needs and Allocating Funds

Principles

Institutional

1. Evaluate proposals and make allocation recommendations that are consistent with the SBCC three-year plan goals and objectives. Thematic emphases of the plan are:
 - a. Student Success
 - b. Recruitment, enrollment and retention of students to serve the community and to achieve funding cap
 - c. Optimizing effectiveness and efficiency in operations
 - d. Maintaining high quality facilities and infrastructure
2. Health and Safety items must be given highest priority
3. Budget principles established by the College will apply. Board adopted budget principles applicable to the current funding environment are:
 - a. The College shall balance its budget; ongoing expenses shall be supported by ongoing income. A general fund contingency of 5% shall be maintained. One-time funds shall not be used to fund programs or activities on an ongoing basis.
 - b. Employee compensation shall be among the highest priorities in making budget decisions. Funds shall be allocated in order to assure competitive salaries, benefits, and working conditions to recruit, retain, and motivate the best possible administrators, faculty and staff.
 - c. The college shall adhere to the principles of shared governance while engaging in institutional planning and budget development.
 - d. Meeting the college's FTES cap in a cost effective and strategic manner shall be a priority.

- e. The College shall budget revenue from enrollment when it is received. Similarly, for non-apportionment income (e.g., out-of-state fees, international student fees, interest income, lottery), an estimate shall be made utilizing trends in order to establish revenue projections.
 - f. Fixed and mandated costs (e.g., utilities, liability and property insurance, salary steps, and reserve requirements) shall be projected annually and allocations will be made to meet these expenses.
 - g. Growth funds shall be allocated only after receipt and shall be used first to fund growth-related expenses. Remaining growth funds shall be allocated to support institutional priorities determined through collegial consultation.
 - h. The District's capital equipment shall be provided, maintained and replaced in a systematic manner. Determining the need for transfers from the General Fund to the Equipment Fund shall be part of the ongoing fiscal planning and budget process.
 - i. Buildings and grounds shall be developed and maintained to meet student and programmatic needs through General Fund transfers to the Construction Fund. Determining the need for transfers from the General Fund to Construction Fund shall be part of the ongoing fiscal planning and budget process.
4. Some infrastructure areas (e.g. facilities, business services, human resources, information technology) have experienced cutbacks and inadequate staffing over the past few years. Infrastructure and support areas that demonstrate significant underfunding must be given highest consideration along with instruction and student services

Process

1. CPC will be the consultation group to make funding allocation recommendations to the President and Board of Trustees.
2. The CPP structure will be utilized as part of the evaluation of funding proposals.
3. Once we are in a position to estimate new general fund revenue, contractual and other obligations will be delineated and subtracted from the available funds. Items identified thus far are:

- Negotiated salary and benefits increases
 - Year 2 of the Classification Study implementation
 - Full-time faculty positions to meet 75/25 requirement
 - Fixed and mandated costs
 - Sabbatical leave excess cost adjustment
 - Equipment and construction allocations (\$1.8 M for equipment, \$1.2 M for construction).
4. Proposals for new allocations will be from the department/division level through the vice presidents and president. The president and each vice president will collect all requests and initiate a consultative process to identify priority items within his/her area.
 5. EC will develop college-wide resource allocation recommendations and submit these recommendations to CPC.
 6. Departments will be notified that recommendations may include items eliminated during the 02-03/03-04 budget reductions. These recommendations will be evaluated against the same principles and criteria used for considering new items.
 7. All department/division recommendations will be submitted to CPC.
 8. CPC will recommend funding allocations to the President.
