

COVID testing administered by Aptitude Clinical Testing

Employees who are enrolled in a SISC (Self-Insured Schools of CA) sponsored medical plan such as Anthem Blue Cross please note:

Aptitude Clinical Diagnostic is an out of network provider. Anthem Blue Cross is only paying \$75 of the \$149 total cost of the test. Employees will receive an Explanation of Benefits (EOB). This is a reconciliation of the claim paid by Anthem. This is **NOT** a bill and not a request for payment.

The remaining \$74 is **NOT** billed to you by Aptitude Clinical. The conditions of the contract that was agreed to between Santa Barbara City College and Aptitude Clinical Diagnostic states that Aptitude Clinical agrees to accept only the amount paid by Anthem Blue Cross. They will not be billing any employee for the difference of \$74.

If, for some reason, you as an employee receives a bill from Aptitude Clinical requesting you to pay \$74, you need to contact Sharon Remacle in Human Resources.
