

Anastasia Savonov - Vice President of Internal Affairs

As a member of ASG I will be able to connect with the most diverse part of your community, people from different places, cultures, and Ideals.

Because I moved here from another country, I experienced a complete change of reality, both culturally and emotionally. I had to adapt a lot by being used to a different social life and culture. This experience made me want to help more students like me, making our campus more inclusive and a second home for many. When I moved to Santa Barbara I had difficulties making friends.

That's something I think is very important to improve. Welcoming new students and starting new activities from the beginning of the semester is essential so our campus becomes more involved throughout the year. I think its important to innovate event ideas and since younger I've always loved to participate in school activities and to help organize different types of events. I think I am the best candidate for this position as I am social person, a strong decision-maker, I enjoy leading teams of people, but I am also a good listener and creative. By being part of AS I will be more involved in our campus community, help with organizations, improve my leadership skills, and help provide a better, more diverse, and unique campus environment. I am more than excited to help with significant and impactful decisions that will provide awesome and remarkable experiences to our community. in this time studying at SBCC I got the chance to be part of clubs, such as PT and Ambassadors, to get to know our community better and to attend events that empowered me to try a leadership role such as AS Vice President internal. I'm looking forward to bringing different ideas and making next year special!
