

Chernor A. Diallo

Associated Students Government Presidential Candidate Platform 2022/23

"Be the change you wish to see in the world". Because of this quote by Mahatma Gandhi, I strongly believe that we the students can together, create the ideal college experience.

Have you ever wondered how as a student, you can contribute to improving your college journey by creating lasting memories and building a strong network for personal and professional development, I have too and with your support, I will dedicate my time and efforts to working towards achieving the following:

Improve and increase students' success, the primary and most important reason we are here for (more hours at the library and learning resource center, advocate for more affordable options at the cafeteria and campus bookstore, more effective and responsive communication between students and departments that includes counselors, support all students clubs through grants and marketing)

Implement and uphold inclusion and empowerment with initiatives that will uplift every student (include international, undocumented, native, and students with disability in the ASG and its activities, include non-credit students representatives for the Wake and Schott campuses, empower student advocates to represent the college on the state and national level through the Community College League Of California and the Students Senate Of California Community Colleges)

Introduce new and improved activities in partnership with clubs and departments (SBCC Olympics, Pot-Luck Hangouts, Inter-Club days, Wheel of fortune giveaways with various prizes, international holidays that include Women History Month, Black History Month)

Improve accountability and accessibility in the Associated Students Government (strive for a gender-balanced ASG, have office hours and by-semester tablings to engage with the campus community, weekly updates during general meetings social media handles, and our website, classroom announcements, monthly newsletters)

As the current Student Trustee representing the student body on the college Board Of Trustees, I have developed the necessary experience and qualifications for the position of President by gaining experience in administrative procedures and advocating for the welfare of students on campus and on the state level in Sacramento. My involvement with the campus community by being an SBCC Ambassador, member of Umoja and Phi Theta Kappa Honor Society have improved my leadership skills and passion for volunteering for the welfare and success of all students and the community. With your support, we can create the best college experience together, make the right choice, and remember to VOTE FOR CHANGE, VOTE FOR CHERNOR
