

Hello my name is Jonny Salmeron, I am currently serving as Student Advocate and plan to keep my position for the 2022-2023 school year. With me as Student Advocate I promise change. But only change that will positively affect the students. Many of my goals that I have for this year will need to continue for the next and with the students' votes I can achieve this. I love this school and I love the people who go to this school. There are so many issues that can be faced and with the vote of the people we will make this school greater than it already is. I want to strive for students to have proper housing and food, gender equality, LGBTQIA + equality, racial equality, and more. So I plan to come back and make sure everyone feels and sees this positive impact.
