

Hi Everyone! My name is Samuel

I'm not new to showing up when students need a voice. On the Curriculum Advisory Committee, I advocate for courses that reflect student interests, challenge unnecessary removals, and make sure our voices are part of the creation of our classes. I've served on the Student Appeal Board, the Equity Plan Committee, and held leadership roles as Commissioner of Accessibility, VP of our PTK chapter, PTK VP of Communications for the states of Nevada and California, and helped lead Philosophy Club, the Honors Program, and International Ambassadors, supporting students, shaping policy, and building community in nearly 100 community colleges. I don't just talk about leadership, I live it, across academics, advocacy, and community. But this, this runs deeper, it's not just a resume item.

I'm running for president because I want our student government to work the way it's supposed to.
